Dear John,

Was glad to hear from you and know you are feeling better. It will take awhile for you to rebuild your strength, but with all the help you have up there I am sure it will not take too long.

I am sorry I was not more open about my past life in Israel at the time of Jesus, but it surprised me some. I am curious as to how you knew. Most people find out through a dream and/or through meditation, but the way you stated it & not asked it, really made me feel somehow you knew with no questions on it and also how ever you came to know must have been very direct in its knowledge. Sometime I look forward to hearing how you learned of it. Only a hand full of people in the world know, so I ask of you and Lynn, please tell no one of this. If someone comes to this conclusion, fine. But otherwise I want people to accept me as I am today and for what my mission is in this life, not for something that happened long ago. Mike does know because he realized it while showering one day he said and asked me to confirm it. Otherwise people really don't know & I prefer it that way. Those who are meant to know will in good time.

Also now that you are aware of this life I will share out other with you about myself and clarify our relationship a little further. I am always hesitant to talk of myself

because I and my past life situations  
are not important so I rarely share them  
with anyone, but here I feel it will open  
a door of understanding. During your time  
of reign of France as Francis I was Leonardo  
Da Vinci of Italy and we became very close  
at that time as well as in other life times.

I visited you often in France and was  
as Tutor of Yours of the Mysteries of Science  
and Spirit. You had me do some painting  
for you as well, and during my later years  
supported me and gave me a residence to  
stay at to complete my works + share my  
knowledge with you. Also Margaret was your  
physician then and helped to, in my final  
days and at my passing.

There is a great deal more but of really  
little importance at this time. I am glad we  
renewed the friendship and look forward  
to its growth and the opportunity in us  
both sharing one with the other in Christ Light.

It scares me so, when I look forward  
and see what it is I am yet to attempt  
+ fulfill in this life, for I wonder how I  
ever + will do this, as well as "Can I give up  
so much of my personal life this time" to  
go forth and accomplish the goals set for me.

You are the only one I am sharing my real  
feelings on this but I believe you can  
understand. Maybe you can help me to  
do what I need to do as I will be helping  
you + help fulfill your goals in the foundation.

Hopefully some time we can sit down  
and really talk now and come even closer  
together.

Must go in now, and open the store. Look  
forward to hearing about your progress.

In the Masters  
Light & Service

Love
